Dear Brothers and Sisters,

I hope everyone is well and looking forward to our demonstration, Rolling Thunder XXIV May 29, 2011. We have for many years been pressuring our government to do the right thing and account for the live American Prisoners of War/Missing in Action that were left behind from all past wars. What is the problem with asking these foreign countries involved to search for and release any POW/MIA's from their respective countries during all past wars? Maybe we can have a better relationship with those countries involved if they were all a little more truthful. Hiding the truth is not the way to go, it will eventually comes to the surface.

Our Troops need our support in the War in Afghanistan. Service connection of Post Trauma Stress Disorder is a VA disability. The Department of Defense (DOD) has changed P.T.S.D. to Immature Personality Disorder to Adjustment Disorders just so they don't have to pay for service connected disabilities. Our Government asks the Military to serve and defend freedom for those in foreign countries and that same Government turns it's back on the Troops they have asked to serve.

Did you ever think of why we have Generals in charge of our Military, when those in Washington, DC who have never put on a military uniform, are telling the Generals how to run a War? Those politicians are getting our Military personnel killed and putting charges against some of our Troops. Our Troops are not police, they are trained to kill or to be killed in a split second decision.

Remember the oath you took when you entered the Military and don't forget it. We were sworn to uphold the Constitution of the United States of America and to defend our Country from foreign and domestic enemy.

Keep America free and support our Troops. Remember our POW/MIA's, our Troops serving and God Bless the United States of America.

Sincerely,
